IMAGINE YOUR LIVING

The concept of home renovation is a design and improvement of a house's different compositions to better and comprehensively cater to dwellers' lifestyles while maintaining its original structure.

HAUS Collection applies the definition to the creation of furniture series whose shapes, sizes, materials and styles can be customized as desired. Despite having the same structure, the customization turns each piece of furniture from the HAUS Collection into a masterpiece with a design that bespeaks each user's taste, functional requirements and individuality.

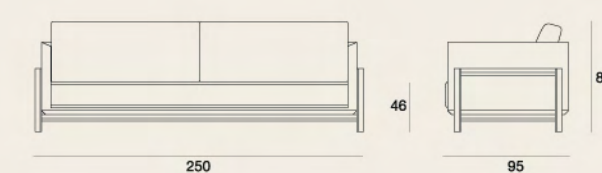

HAUS Collection completes your vision of a dream house, from your favorite lounging area, the dining table where you share your meal with your loved ones, to a comfortable and peaceful bedroom. The furniture comes with the chamfered A-shape details found in the different components such as the bed and sofa edges or table legs, inspired by the form of the letter 'A' in BAUEN's logo. Each piece is distinctive with unique design signature and indicative of attention to detail. The HAUS Collection's uncompromising quality can be seen in the materials chosen for each furniture piece, from premium-graded materials from fabrics made of natural fibers, top-of-the-line authentic Italian leather, to pull up leather imported from Europe. The exterior structure is made of real wood, while automotive painting techniques are also utilized with the metal parts.

Hans | Sofa

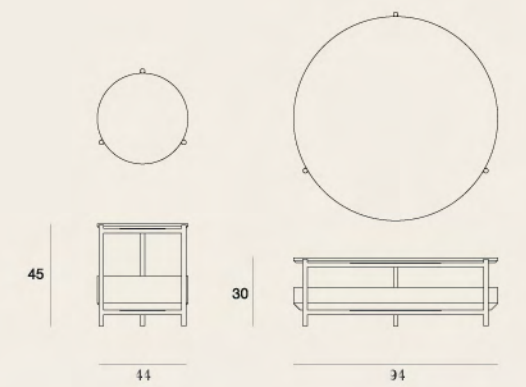

the sofa's backrest and armrests can be adjusted to be physically thinner and lighter with wood legs that grant a more natural feel. The preferred materials range from brown tone leathers and fabrics for the warm natural touch.

Zigmund | Center & Side table

The circular Center and Side table comes with a marble top and steel legs that utter the simple yet sophisticated accent.

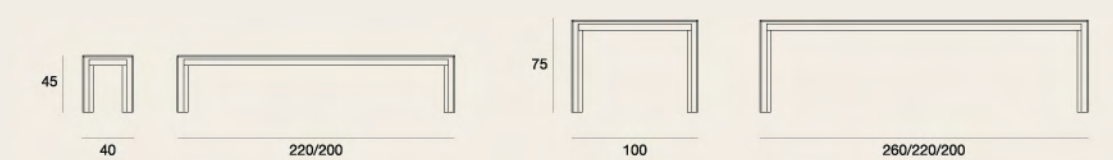

Haus | Dining

Otis | Dining Table & Bench

the collection's dining table embraces the minimalistic rectangular form and comforting texture of wood.

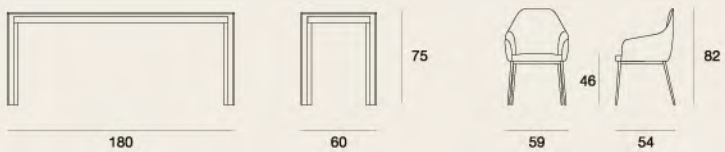

Otis & Eda | Working Table & Chair

Otis, The collection's working table embraces the minimalistic rectangular form and comforting texture of wood.

Eda, the chair whose elegant form is met with grey fabric upholstery and metallic surfaces of the legs stylishly merging glamor to simplicity.

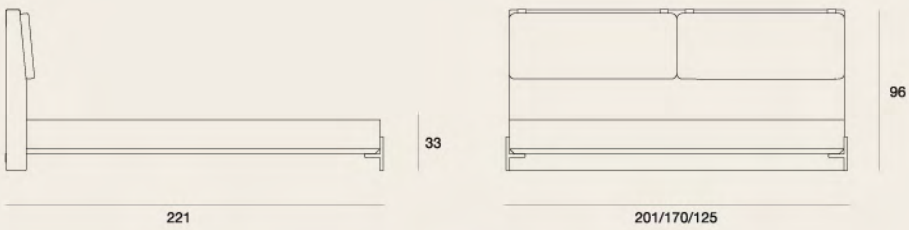

Haus | Bed

Morgen | Bed

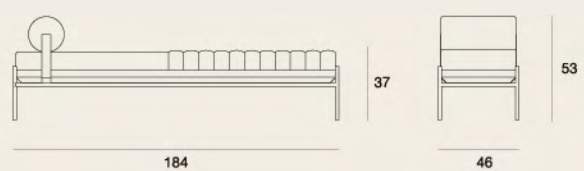

The bed chosen for the master bedroom comes with minimalistic details of chamfer corners, which allow a more convenient bed making.

Morgen | Bench

Otis, The collection's working table embraces the minimalistic rectangular form and comforting texture of wood.

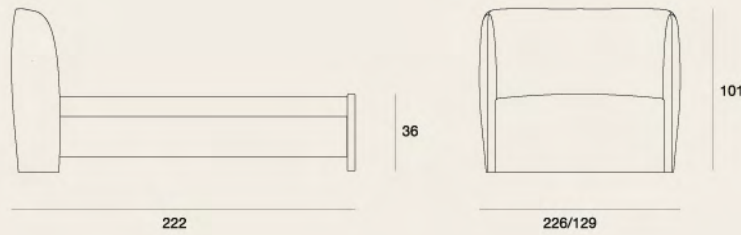

Ambros | Elder bed

For an elderly sleeper, the bed's design factors both the beauty and functionality with the scale and proportion that accommodate users' body proportions. The chamfer details and headboard with secret compartment enable senior users to effortlessly access their everyday personal items and essentials such as glasses, medicines, etc.
